

## WALCLEAN SR - 100

### **Stain Removing and Scouring Agent for Textile Fabrics.**

It's a low foaming wetting and washing agent for all pretreatment processes of woven fabric and knitted fabric. It is suitable for oil removing, scouring of cotton and its blends with other synthetic fibers.

---

### **Composition**

Fatty Alcohol Ethoxylates

### **Product Features**

- |                       |            |
|-----------------------|------------|
| • Physical Appearance | Thick Jell |
| • pH                  | 5-6        |
| • Ionic Character     | Nonionic   |

### **Properties**

- Free of APEO
- WALCLEAN SR-100 is highly effective for removal of fiber impurities, fats, natural, waxes, fatty acids, protein, pectin, weaving oils, minerals and color impurities.
- WALCLEAN SR-100 keeps the impurities in suspension and prevents their redeposition on the fabric due to its good dispersing properties.
- It acts as a wetting agent in the bleaching of cellulosic fibers.
- Good compatibility with enzymatic desizing liquors
- WALCLEAN SR-100 gives rapid wetting out of heavily sized cotton.
- It has good rinsing properties.
- Can be used in carbonizing liquors
- It imparts very good detergency, rewetting and emulsifying properties.

### **Application & Dosage**

WALCLEAN SR-100 is readily miscible with water in all proportion. However, it is recommended to premix in hot water (50-60 °C) before addition to the bath.

It is suitable both for continuous and batch process.

Recommended dosage is 0.5-2 g/l depending upon the process and fabric impurities/conditions.

## WALCLEAN SR - 100

### **Safety, Storage and handling:**

- Store at ambient temperature.
- Product change at temperatures BELOW (15°C) possible
- Change reversible by heating and stirring
- Observe the usual precautions while handling the chemical.
- WALCLEAN SR-100 keeps away from heat, spark and fire.
- Avoid prolonged contact with skin.
- Washed immediately with copious amount of water in case of skin or eye contact.
- Shelf life 6 month.

### **Packing**

**WALCLEAN SR-100** is available in 125Kg & 200Kg plastic drum.
